WORK EXPERIENCE

Fullstack Engineer | June 2024 – Present
Ascendion

- Worked on modernizing Cebu Pacific's internal system by migrating from AngularJS (v1) to Angular v2+ within a Microsoft SharePoint environment. Used Azure DevOps for pipelines and Bootstrap for responsive UI updates.
- **Technology used:** AngularJS, Angularv2, Bootstrap, Typescript, Javascript, Sharepoint, Apigee, Power Automate

Freelance Frontend Developer | October 2023 – May 2024
Undertech

- Responsible for building responsive and user-friendly web and mobile interfaces for a betting platform using Next.js and Tailwind CSS. Worked closely with design and backend teams to deliver high-quality, optimized frontend solutions.
- **Technology used:** React JS, Next.js, Node.js, Tailwind CSS, Nextauth, Typescript, Formik

Frontend Developer | November 2022 – September 2023
Fitness and Lifestyle Group

- The role is responsible for designing and developing visually engaging and user-friendly interfaces for a fitness-focused web and mobile platform. It involves close collaboration with design and backend teams to deliver seamless, high-performance frontend solutions tailored to the needs of fitness enthusiasts.
- **Technology used:** React JS, Next.js, Node.js, Redux, Storybook, GraphQL, Contentful CMS

Software Engineer I | November 2021 – November 2022
Cloud Panda PH

- The role is responsible for designing, coding and modifying applications from layouts to function and according to a client's specifications. Candidates must specialize in mobile technology such as building apps for Google Android and Apple IOS.
- **Technology used:** React Native, Proptypes, GraphQL, Node.js

Freelance Software Engineer I | April 2020 – February 2022

Genius Giant

- Responsible for designing and implementing cross-platform user interfaces using React Native for mobile applications. Collaborated with backend developers to ensure seamless integration and optimal user experience. Contributed to building Repit Social, an inclusive social media platform that connects people from all countries, allowing users to represent their flag and cultural identity with pride.

- **Technology used:** React Native, React JS, Redux, Node.js, PHP, AWS

Junior Developer | October 2019 – March 2020

Boomsourcing

- Responsible for developing and implementing user interface components using React.js concepts and workflows such as Redux, Flux, and Webpack.

- We built project called "Handraiser App" that allows Boom Camp students to "digitally" raise their hands to request assistance from a mentor. It is easy to the mentors to provide assistance and lessen the burden on students who keeps requesting who is next in the queue.

- **Technology used:** HTML5, CSS/SASS, React JS, Node.js, RestAPI, JavaScript, Docker

---

EDUCATION

Forbes College | 2015 – 2019

Bachelor of Science in Information Technology

- Best Thesis Awardee
- Best in Capstone Project
